<sup>1</sup> Total persons under sentence of death on December 31 of each year.

Persons with multiple California death sentences are counted once.

<sup>2</sup> The increase in the total number of persons under sentence of death from year-to-year will *not* equal the number of initial sentences reported each year. This is because, in addition to initial sentences, persons may be resentenced to death, no longer under sentence of death because of execution or death by other causes, removed pending retrial, resentenced to a penalty less than death, or freed.
